I. GENERAL INFORMATION ABOUT COOKIES

What are cookies?

'Cookies' are small, zipped text files that allow us to store data specifically related to the user's device while they are visiting our website.

A cookie is a small file that is downloaded onto the user's computer/smartphone/tablet when accessing certain websites to store and retrieve information on the terminal equipment among other functions, it facilitates the storage and retrieval of information related to a user's browsing habits in order to offer an improved service. The information obtained through cookies is anonymous and does not allow the user's identity to be disclosed.

Types of Cookies

Depending on the entity that manages the domain from which the cookies are sent and processes the data obtained, two types can be identified:

- **Own Cookies:** These are sent to the terminal equipment from our own equipment or domains.
- **Third-party Cookies:** These are sent to the terminal equipment from an equipment or domain of another collaborating entity

According to the length of time they remain stored in the client's browser, they may be:

- **Session Cookies:** These are activated while the user accesses the website or for the provision of the service requested.
- **Persistent Cookies:** These are stored for a certain period of time in the user's terminal equipment, to which

the party responsible has access when the user connects to their website.

According to the purpose for which the obtained data is processed:

- **Technical Cookies:** These are necessary for the use of the website and the provision of services.
- **Customisation Cookies:** These allow the user to access the service with predefined general characteristics based on a series of criteria in the user's terminal (language, type of browser...).
- **Analysis Cookies:** These enable the monitoring and statistical analysis of the behaviour of all the users on the websites to which they are linked.
- **Advertising Cookies:** These facilitate the management of advertising spaces on the website, application or platform from which the requested service is provided.
- **Behavioural Advertising Cookies:** These cookies store information on the behaviour of the users obtained through the continuous observation of their browsing habits, which allows them to develop a specific profile to display advertising based on it.

How are Cookies to be managed?

In most cases, a website can be accessed even if it has been deactivated in the browser or the use of cookies is not accepted.

Website browsers often allow the user to disable cookies, limit them to specific web pages, or set their browser to notify them when a cookie is inserted. They can also be deleted at any time from the computer's hard drive (file: 'cookies').

Please note that normally in these cases there will be limitations to the page layout and user interface.

Almost all browsers allow some control over most cookies through browser setting parameters.

II. SPECIFIC INFORMATION REGARDING COOKIES WE USE ON THIS WEBSITE

Cookies help determine how often our web pages are visited and by how many users. For example, web analytics techniques are used to assess the number of visitors to the various pages and sections of our Website, their interactions and the duration of their visits, place of entry and exit, to try to improve our content and its engagement capacity.

We use 'customisation cookies' to facilitate browsing through the website in different languages, as well as to verify the integrity of the data submitted by the user in the forms.

We use 'session cookies', which are stored exclusively during the user's visit to one of our Internet pages.

'Persistent cookies' are also used to retain information about users who repeatedly access one of our Internet pages.

The purpose of using cookies is to be able to offer the user an optimal user interface and recognise them each time they log on to present a variety of websites (as many as possible) and new content.

In general, a personal profile of their online activities is not created.

A persistent cookie's content is limited to an identification number.

The user's name, email address, IP address, etc. are not stored on most of our websites.

There are some exceptions:

In accordance with the provisions of Judgments C-673/17 (Planet 49 case) and C-40/17 (Fashion ID case) of the Court of Justice of the European Union, we inform you that, if you consent, Google collects and processes your personal data for its own purposes, providing exclusively statistics and aggregated data about browsing and interactions on the web.

You can find detailed information about the processing of your personal data by them at the following links:
